CONSTANT COMFORT™ XS 80 Gas Furnace

Heating & Cooling Products

Enjoy efficient, quiet performance. The reason for the reliability of the Day & Night® Constant Comfort™ XS 80 Gas Furnace is the combination of craftsmanship and quality. Features include an advanced ignition system that provides reliable operation. The Constant Comfort XS 80 is designed to minimize operating sounds, with a thermal lining and a sealed circulation blower motor compartment that help keep operating sounds inside the cabinet. The ECM blower motor can also give you an increase in cooling efficiency that can translate to an increased SEER¹ rating when matched with select Day & Night air conditioners and evaporator coils.¹

¹SEER stands for Seasonal Energy Efficiency Ratio.

¹As compared to the Air-Conditioning, Heating and Refrigeration Institute's standard coil-only rating.

Day & Night units are backed by exceptional warranties*, including our No Hassle Replacement™ limited warranty, which gives the original purchaser a replacement unit if the heat exchanger should fail due to defect within the first year. You also get a 10 year parts limited warranty upon timely registration and a 20 year limited warranty on the heat exchanger.

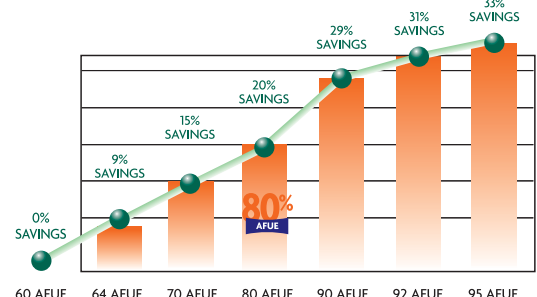

**Timely registration required for 10 year limited parts warranty. Limited warranty period is 5 years for parts if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty period. Please see warranty certificate for further details and restrictions.*

The heart of every furnace is the heat exchanger. The proven RPJ® (Rigid Press Joint) heat exchanger is designed to force more heat to the outside surface for increased heat transfer, and it's constructed of tough corrosion-resistant aluminized steel. The weld-free interlocking clamshell design reduces cracking or separating over the life of the gas furnace. And you can count on energy savings with an 80% AFUE² rating, compared to an older, less efficient furnace.

²AFUE stands for Annual Fuel Utilization Efficiency.

Higher AFUE Equals Greater Energy Savings

Percentage based on national averages; may vary according to efficiency of current unit and installation.

The difference is Day & Night.

1. Reliable
Direct Hot Surface Ignition System features an advanced silicon nitride igniter and in-shot burners for greater reliability.

2. Safe
Temperature limit control, reliable gas valve and induced draft motor plus a patented draft safety switch that shuts off the furnace if a vent blockage is detected.

3. Quiet
Solid pre-painted steel insulated cabinet with tight-fit door latch system, blower motor isolated behind a sealed door, and soft-mount rubber gaskets on key components lower operating sounds.

4. Efficiency
ECM blower motor provides efficiency. The XS 80 is also compatible with two-stage cooling, and its advanced dehumidification capability can reduce additional moisture in the air when you add a humidity-sensing thermostat to your system.

5. System Control
State-of-the-art electronic controls monitor system operation and allow for faster, easier system diagnostics.

PURE COMFORT FOR ALL SEASONS.

Day & Night Heating & Cooling Products recommends a complete integrated system to maximize comfort and efficiency.

- a. **Humidifier** enhances comfort by reducing dryness in the air.
- b. **Air Cleaner** filters out many indoor air pollutants so the air in your home is cleaner.
- c. **Set-Back Thermostat** allows you to customize heating and cooling levels and also save energy.
- d. **Furnace** is designed for maximum comfort and efficiency, and built rugged for years of operation.
- e. **Air Conditioner** keeps your home cool and comfortable while saving on energy.
- f. **Evaporator/Indoor Coil** matches your Day & Night air conditioner and furnace to ensure great performance.
- g. **UV Lights** help prevent the growth of microbes on the coils. (Not available on all models.)
